- 25X1 1. On 12 April 1954, weapons and motor vehicles observed in the AA section  
 25X1 of the barracks installation in Kagran (P 49/X 49) included: 8 medium  
 25X1 AA guns, 6 x 37-mm AA guns and 3 AA sub-machine guns, 29 trucks   
 25X1  6 weapon  
 25X1 carriers, 3 van-like trucks,  1 signal truck   
 25X1  and 2 van-like trailers, on the roof of one of which a device,  
 probably a searchlight, was fitted. 1
- 25X1 2. On 13 April, there was intensive activity in the AA section of the barracks  
 25X1 installation. About 100 men wearing red-bordered black epaulets, were doing  
 25X1 maintenance work on equipment and motor vehicles. The following weapons and  
 25X1 motor vehicles were observed: Eight medium AA guns; 6 x 37-mm AA guns; 4  
 25X1 AA sub-machine guns; 28 trucks   
 25X1  3 van-like  
 25X1 trucks; 1 signal truck  2 van-like trailers, one of them fitted  
 25X1 with an antenna consisting of a dipole carrier with 6 vertical dipoles the  
 other fitted with 2 flat spherical caps with a diameter of about 1 meter; 2  
 25X1 2 weapon carriers; and 1 two-wheel aggregate.
- 25X1 1.  Comment. It is believed that the barracks installation in Kagran is  
 25X1 still occupied by a reinforced air force AA unit. The four medium and five  
 25X1 light AA guns not observed on 2 April were probably used for a short exercise  
 25X1 outside the military post.
- 25X1 2.  Comment.   
  
 the same equipment was involved as observed in an AAA emplacement in  
 Magdeburg in December 1953. The set is fitted with two spherical caps and  
 probably is a copy of a model AA No 3 Mk 2 radar set.
